Advance connected care vision

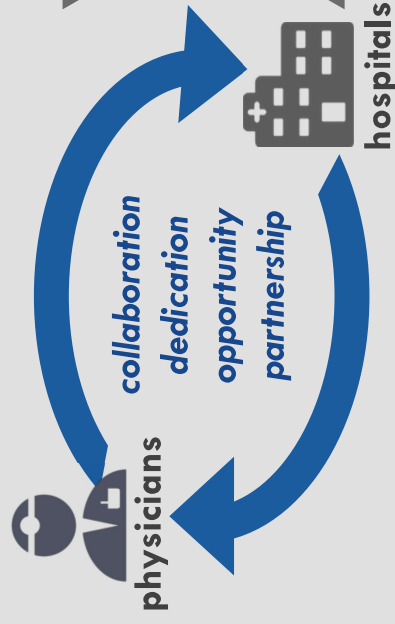

Reduce avoidable readmissions

Expand experience in value-based care and population health management

Lead the Future of Healthcare Delivery

Quality Patient Care

right care. right time.
right place.

improving
the future
of healthcare
delivery

- The goal of Accountable Care Organizations is to improve the quality and efficiency of patient care across the entire care continuum
- ACOs are an **integral piece of improving the future of healthcare delivery** and preparing for migration to population healthcare models and opportunities
- Joining the Crestwood Regional Healthcare Alliance presents an opportunity for physicians to have a seat at the table and partner with hospital leadership and post-acute providers to improve patient care

Managing the Continuum of Care – MSSP ACO Big Picture
